

Improved Class Rules

1. Class speed limit is 6 mph.
2. Engine RPM is allowed to be maximum 20% over factory spec / Nebraska Test. Governor must be operational.
3. Gear changing (T/A shifting) is not allowed during pull.
4. Cut tires are allowed.
5. Hitch must be no more than 20 inches to top of hook point, and at least 18 inches from rear of draw pin hole to center of axle. Fabricated hitches are allowed.
6. Any agricultural carburetor allowed. Number of barrels, throats, venture, etc must be that of the manufacturer for that make. Exception: John Deere may run updated (duplex) heads, manifolds and carburetors stock or manufactured replacement manifolds permitted.
7. Improved class tractors are not allowed in Farm class (unless at Sponsors Request). They may pull in Super class.
